

Krimega-X

Krimega-X is a combination of Krill, supercritical extract fish and supercritical extracted astaxanthin to support joint & cognitive functions and cardiovascular health*

Krimega-X is:

- Gluten Free
- Soy Free
- Made with non-GMO ingredients

Krimega-X Supports:

- Healthy cardiovascular function*
- Joint health*
- Cognitive support*

Benefits of Krill Oil from Neptune Technologies & Bioresources Inc.:

- Krill Oil of Neptune Technologies & Bioresources Inc is independently tested for its free radical fighting activity and superior stability and safety. The fats in Krill Oil are in the form of phospholipids, which means they are highly bioavailable, absorbable and immediately available to help protect cell membranes.*
- Krill Oil from Neptune Technologies & Bioresources Inc. is both IFOS and IKOS certified. IKOS is a certification program specific to Krill Oil. IKOS stands for International Krill Oil Standards Program (IKOS) which is a third-party testing and accreditation program for omega-3 krill oil products. Products that match the label claim for omega-3 fatty acids, and meet the safety standards for environmental contaminants set by the Council for Responsible Nutrition (CRN) and the World Health Organization (WHO), are eligible for inclusion on the IKOS Program website.
- IFOS stands for International Fish Oil Standards. It is a third party testing and accreditation program for omega-3 fish oil products. Products must match the label claim for EPA and or DHA, and meet the safety standards for environmental contaminants set by the Council for Responsible Nutrition (CRN), the Global Organization for EPA and DHA Omega-3 (GOED) and the World Health Organization (WHO) to be eligible for certification and inclusion on the IFOS website.

Benefits of Supercritical Extracted Fish Oil

- Super Critical Concentrated Fish Oil undergoes a critical CO2 extraction process without the use of hexane or ethanol for purity, bioavailability, concentration and stability. Using CO as a medium to extract the omega-3 fatty acids and separate them from other parts of the oil protects them from oxidation and contamination with microorganisms. Quality of this fish oil is verified by IFOS (International Fish Oil Standards).

Benefits of Supercritical Concentrated Astaxanthin

- Supercritical Concentrated Haematococcus pluvialis is a freshwater species of algae well known for its high content of the strong antioxidant astaxanthin. It is produced using a supercritical extraction process to ensure that it is highly concentrated.

Health Benefits of Astaxanthin

- In addition to management of oxidative stress and supporting a healthy inflammatory response, astaxanthin supports the immune system for overall wellness.*

Astaxanthin Supports:

- The management of oxidative stress*
- A healthy inflammatory response*
- Cardiovascular health*
- Exercise and recovery*
- Eye and heart health*
- Immune system function*
- Skin health*
- Nervous system support*

Supplement Facts

Serving Size 2 Softgels

Servings Per Container 30

Amount Per Serving

Calories	15
Calories from fat	15
Total Fat	1.5 g
Cholesterol	15 mg
Omega 3 Fatty Acids	498 mg
Phospholipids	440 mg
Eicosapentaenoic Acid (EPA)	314 mg
Docosahexaenoic Acid (DHA)	92 mg
Astaxanthin	4 mg

Other ingredients: krill oil, supercritical CO2 concentrated (EE) fish oil, gelatin, glycerin, supercritical CO2 concentrated Haematococcus pluvialis, purified water, mixed tocopherols.

Contains: Crustacean Shellfish (Krill) and Fish (Anchovies & Sardines).

Warning: If pregnant or nursing, anticipate surgery or take anticoagulants, such as warfarin, consult your healthcare practitioner before taking this product.
